

Flat magnets

Flat, soft magnets are amongst the most popular within our range of products. Such magnets can have a practical application in the workplace and at home. This, combined with aesthetic value and low price make them interesting and useful as an advertising medium.

Flat magnets are an excellent option for an economical gift. The base for this product is the magnetic foil 0,4 or 0,3 mm and the print (on the foil or paper) is done in screen or offset printing process. Flat magnets are ideal for all kinds of promotions because of the low price, short-term production, even for millions of pieces.

Epoxy magnets

Epoxy magnets are made on the base of the magnetic foil, then they are covered with a layer of polyurethane resin. Those products find their application there, where appropriate presentation and aesthetic execution of the trademark prove the qualities of the product by creating a positive image of the brand and manufacturer. By using suitable materials they are resistant to external factors (extreme temperature, moisture, chemicals). They also characterize by persistence of colors and the magnetic foil give them excellent adhesion to metal surfaces.

With the unique form epoxy magnets are perfect for advertising purposes. Epoxy magnets can be made in virtually any size and shape. As our other products we can pack them individually in polybags with food contact certificate.

Magnetic photo-frames

A very interesting application of flat magnets are magnetic photo frames - you can attach your favorite photos on the refrigerator or any other metal surface. Made in various shapes and sizes have a high value in use, while being an attractive medium for advertising. An additional advantage of this product is a possibility to design the graphics in such a way that the inner part of it could be a separate adv. magnet or smaller magnetic photo frame.

Magnetic bookmarks

Magnetic Bookmarks are becoming increasingly popular on the advertising market. By strips of magnetic film, bookmark does not come out or not fall out of a book or notepad, so it can be successfully used during travel, business meetings and office works. This gadget is useful not only for young people and lovers of literature, but also for all those who wish to maintain order in the documents. With its compact size and capabilities of the unit pack is ideal for gift attached to magazines and other products. They are available in standard shapes and sizes, but also carried out according to individual design of our customers.

Magnetic bottle opener

Magnetic bottle openers belong to this group of advertising products which fulfill the utility function. An important advantage of openers is the possibility of presentation of graphic in lenticular version. Applying of this technology makes the product particularly attractive and gives the customer the opportunity to submit ..images in an original way.

Opener is equipped with a powerful neodymium magnet, so it can serve as an advertising medium for example: on the fridge, although it is always at hand.

Magnetic notepads

From our range of products, produced within our company, magnetic notepads have become quite popular.

Being practical and attractive, they make a perfect gift for all kinds of promotions.

The magnetic "head" of the notepad can be made in any shape and printed in both screen and full-color offset technique.

Notepads sheets are printed offset.

Magnetic notepads can be individually wrapped in food certified polybags on request.
